Professional Summary

Full Stack Web Developer with 2+ years of experience in React.js, Next.js, and the MERN stack (MongoDB, Express.js, React, Node.js). Experienced in building RESTful APIs, integrating third-party services, and implementing secure authentication systems. Hands-on with .NET Core MVC and Flask for backend services. Skilled in writing maintainable, production-ready code and collaborating in Agile/Scrum teams of 5–7 developers. Delivered applications with improved performance, accessibility, and responsive design for cross-device users.

Work Experience

Frontend Developer

Horizon Tech Services Pvt. Ltd. – Islamabad | Jul 2023 – Present

- Built and maintained responsive, user-focused applications using React.js, Next.js, Redux, and Tailwind CSS, improving UI performance and accessibility.
- Collaborated with backend teams to integrate REST APIs and optimized data flow, reducing page load time by 30%.
- Implemented authentication & role-based authorization using JWT and Firebase, ensuring secure data access.
- Gained hands-on experience with ASP.NET Core MVC and SQL Server, contributing to data-driven applications and enhancing search features with Elasticsearch.
- Used Git, Jira, and TFS for version control, project tracking, and team collaboration.

Frontend Developer (Internship)

National Incubation Center, MCS Rawalpindi | Sept 2022 – Feb 2023

- Assisted in frontend development tasks, collaborating with senior developers to deliver scalable applications.
- Improved code reusability and UI consistency using React components and modern CSS frameworks (Bootstrap, MUI).
- Learned best practices in software development and version control using Git.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, Context API, Tailwind CSS, Shadcn, Bootstrap, MUI

Backend: Node.js, Express.js, ASP.NET Core MVC, Python (Flask)

Databases: MongoDB, SQL Server, Firebase Firestore

APIs & Tools: REST APIs, GraphQL, OAuth, JWT, Git, Jira, TFS

Other: Agile/Scrum, Unit Testing (Jest), Deployment (Vercel, Netlify)

Projects

Krybe (Flask + React + Google APIs)

- Achieved meeting automation features by integrating Recall.ai with Flask backend and React frontend.
- Implemented Google Calendar OAuth integration, automating scheduling and syncing events with Firestore.
- used webhook handlers for real-time calendar updates and transcription display.
- Reduced app load time by 30% through code splitting and lazy loading.

Potolo (React + Tailwind + Redux Toolkit + Ant Design)

- Developed the frontend of a business web application with responsive UI using React.js, Tailwind CSS, and Ant Design components.
- Integrated REST APIs with Axios to handle authentication, data fetching, and dynamic business workflows.
- Implemented internationalization (i18next + react-i18next + language detector) to support multiple languages, enhancing global usability.
- Integrated third-party libraries like Google Maps API, React Phone Input, React Responsive Carousel, and React Toastify to provide a modern, interactive user experience.

Polynine (Next.js + GraphQL + TypeScript)

- Contributed to a product management platform using Next.js, GraphQL, TypeScript.
- Enhanced functionality and scalability by designing reusable components and optimizing queries.

E-Queue System (MERN + Redux)

- Designed a virtual queue management system with real-time updates and QR code scanning.
- Integrated JWT authentication and admin dashboard for user management.

- Implemented Redux + Redux Persist for state management and offline persistence.

Pluu AI (React + Firebase)

- Developed a responsive interface for an online interviewing app.
- Integrated AI-driven video analysis models to evaluate tone of voice, eye contact, facial expressions, and body language, providing users with actionable insights for improvement.
- Implemented Firestore + Firebase authentication for secure user data management and progress tracking.

Discountify (React + Styled Components + Firebase)

- Designed a fully responsive e-commerce app with product listings, shopping cart, and authentication.
- Leveraged React Router and Context API for smooth navigation and global state handling.

Education

B.E. Software Engineering

Military College of Signals, NUST – Rawalpindi | Sept 2019 – Jun 2023

Key Strengths

- ✓ Strong problem-solving & debugging skills
- ✓ Ability to work independently or in Agile teams
- ✓ Experience with cloud deployments & CI/CD pipelines
- ✓ Passion for writing clean, scalable, maintainable code
- ✓ Quick learner of emerging technologies
